

SM-22 V1.0

Airport Alliance Contracting Safety & Health Policy

"Safety is the priority value for all Airport Alliance Contracting people. We are committed to excellence in safety and health management that will support our objective of zero harm to our people and those with whom we interact."

Our Safety and Health system incorporates and outlines the responsibilities and accountabilities for all Airport Alliance Contracting employees and contractors.

Our Objectives - We will:

- Provide a safe system of work within a safe and healthy working environment for all employees and contractors.
- Incorporate Safety and Health Management Planning into all aspects of our business.
- Ensure there is effective involvement and open communication on safety and health matters at all levels of our business.
- Develop, maintain and continually improve safe and healthy work practices, standards and behaviour at all work sites where we operate.
- Comply with, and where appropriate exceed applicable legislative requirements.
- Establish measurable objectives and targets to meet these intentions and regularly reviewing our progress, ensuring that this policy remains relevant to our business and stakeholders.

Our Safety and Health Responsibilities:

Compliance with our policy is the responsibility of all Airport Alliance Contracting employees and sub contractors.

Executive Director
Airport Alliance Contracting
